<u>Legal structure</u>	: French Mutual Fund (FCP)
<u>Management Company</u>	: EDMOND DE ROTHSCHILD ASSET MANAGEMENT
<u>Administration delegated to:</u>	: EDMOND DE ROTHSCHILD INVESTORS ASSISTANCE
<u>Accounting delegated to:</u>	: CACEIS FASTNET
<u>Expected lifetime</u>	: 99 years from the constitution date of the FCP
<u>Custodian</u>	: LA COMPAGNIE FINANCIERE EDMOND DE ROTHSCHILD BANQUE
<u>Auditor</u>	: KPMG SA
<u>Promoter</u>	: EDMOND DE ROTHSCHILD ASSET MANAGEMENT

INFORMATION ON INVESTMENTS AND MANAGEMENT

➤ **Classification:**

International equities.

➤ **Investment objective:**

The objective of the FCP is to actively invest in environmental themes by selecting equities on a discretionary basis, investing in particular in alternative and renewable energy sources (solar, hydro electric, wind, biomass, nuclear, fuel cells, etc.), and in companies involved in combating the greenhouse effect and global warming. Over a recommended investment horizon of more than 5 years, the FCP aims to outperform the MSCI AC World Index (converted into euro for units issued in Euro and US dollars for units issued in US dollars), excluding net dividends.

➤ **Benchmark:**

The Morgan Stanley Capital International All Countries (MSCI AC) World Index (Bloomberg ticker: MXWD), expressed in euro for units issued in Euro and US dollars for units issued in US dollars and dividends not reinvested reflects the fluctuations of approximately 2400 stocks on the large international markets. This data is available at www.msci.com.

As the FCP does not use an index-based management strategy, its performance may differ substantially from the benchmark, which serves only as a comparison index.

➤ **Investment strategy:**

The FCP implements an active "stock-picking" management strategy, selecting international stocks connected to environmental themes; these stocks shall represent a minimum of two thirds of the net assets.

These equities shall be selected in accordance with the strategy described hereinafter:

- Selection of the investment universe is based on the use of quantitative filters allowing the identification of stocks which shall be considered admissible and which shall be subject to further analysis. The investment universe in which the FCP invests includes equities of all capitalisations;
- External research is used to assist managers in conducting their own research on a reduced number of stocks included in the investment universe. External analysts are also subject to a selection process defined by the Management Company.
- Stocks chosen in this way are subject to a quantitative and qualitative analysis. The manager shall select the securities exhibiting the most promising potential in terms of growth and performance in order to construct a portfolio of approximately 50 to 100 stocks.

Depending on the Fund manager's expectations regarding the evolution of the equity markets, the FCP may invest up to one third of the net assets in debt securities and money market instruments traded on the international markets. Such securities (rated at least "investment grade", but with no maximum duration) are selected according to their expected yield.

Subject to a limit of 100% of the net assets, the FCP may invest in forward financial instruments traded on international regulated, organised or OTC markets as follows:

- Equity options contracts, in order to both reduce equity volatility and increase the FCP's exposure to a limited number of equities;
- Futures contracts, in order to manage equity exposure;
- Forward currency contracts or currency swaps, in order to hedge exposure to specific currencies with respect to equities from outside the eurozone.

Moreover, the FCP may invest up to 10% of the net assets in units or shares of:

- coordinated French or European UCITS investing in any asset class, in order to diversify exposure to other asset classes;
- coordinated French or European index funds, including ETFs, in order to increase exposure to the equity markets or diversify exposure to other asset classes.

These UCITS may be managed by the Management Company or an affiliated company.

As its objective is to invest in securities in all geographical zones, the FCP may hold securities denominated in currencies other than the euro and may therefore be exposed to currency risk. Depending on the manager's expectations regarding downward currency movements, and in order to hedge against this risk, the FCP may use forward currency contracts or currency swaps.

For cash management purposes, the Fund may use cash borrowing transactions, reverse repurchase agreements and fixed income or money market UCITS, up to the limit of 10% of the net assets.

All assets in which the FCP invests are described in the detailed memorandum.

➤ **Risk profile:**

Your money shall be invested primarily in financial instruments selected by the Management Company. These instruments shall be subject to market trends and fluctuations.

Main risks:

- Risk of capital loss:
The UCITS does not guarantee or protect the capital invested; investors may therefore not get back the full amount of their initial capital invested even if they hold their units for the recommended investment period.
- Discretionary management risk:
The discretionary management style is based on expectations regarding the performance of the equity markets. However, the Fund may not be invested in the best-performing stocks at all times. The FCP may not be able to meet its objectives.
- Equity risk:
The Fund manager seeks equities that may outperform the markets, in both rising and falling markets. In the event of a downturn of the equity markets, the net asset value of the FCP could drop. The FCP may have significant exposure to these markets (up to 110% of the net assets, mainly in the event of substantial fluctuations of subscriptions/redemptions); its value may fall faster than the markets. As its objective is to invest in companies of all capitalisations, the FCP may therefore invest in small capitalisation companies. Investors are reminded that the small capitalisation markets are intended for companies that, due to their specific characteristics, may represent a risk for investors.

The FCP may invest in stocks traded on the emerging markets. The risk linked to these investments stems particularly from the operating and supervision conditions of these markets, which may deviate from the standards that exist on the large international exchanges and thus trigger sharper and more abrupt market movements.

. Sectorial risk:

The FCP presents a sectorial risk as it invests in a specific business sector; that is, the environmental sector. This sector is particularly sensitive to changes in environmental and sustainable development legislation. A downturn in this market may lead to a decline in the net asset value.

. Currency risk:

The capital may be exposed to foreign exchange risk where the securities or investments it is composed of are denominated in a currency other than that of the FCP.

Currency risk is the risk of capital loss incurred when an investment is made in a currency other than the euro and such currency depreciates against the euro on the currency market. Up to 110% of the FCP's net assets may be exposed to currency risk.

Risk linked to the currency of units other than the currency of the FCP:

The unit holder, subscribing in currencies other than the reference currency of the FCP (EURO) is exposed to the exchange rate risk of up to 110% of the assets.

The value of the assets may decline if the exchange rates change, which may result in a decrease in the net asset value of the fund.

Secondary risk:

. Interest rate risk

. Credit risk

. Liquidity risk

A description of all the main risks incurred by the FCP is given in the detailed memorandum.

➤ **Guarantee or capital protection:**

None.

➤ **Target subscribers and typical investor profile:**

A and E units are intended for all investors wishing to subscribe in Euro

E units are specifically sold by distributors selected by the Management Company.

B units are intended for all investors wishing to subscribe in USD

I and R units are intended for legal entities with the capacity to make an initial subscription of EUR 500,000 (not USD).

Minimum initial subscription amount:

- A, B and E units: 1 unit

- I and R units: € 500,000

This FCP is particularly suitable for investors wishing to achieve greater returns on their savings via an investment strategy which primarily targets the environmental sector.

The appropriate amount to be invested in this FCP shall depend on your personal situation. To determine their level of investment, investors are invited to seek professional advice in order to diversify their investments and to determine the proportion of their financial portfolio or their assets to be invested in this FCP bearing in mind, more specifically, the recommended investment period and exposure to the aforementioned risks, their personal assets, their needs and their own objectives. In all cases, unitholders must sufficiently diversify their portfolio so as not to be solely exposed to the risks of this FCP.

This FCP can not be offered to subscriptions in the territory of the United States or to U.S. Persons as defined in the regulations of the United States.

. Recommended minimum investment period: > 5 years.

INFORMATION ON EXPENSES, FEES AND TAXATION

➤ **Fees and expenses:**

- Subscription and redemption fees:

Subscription fees increase the subscription amount paid by the investor, while redemption fees decrease the redemption proceeds paid to the investor. The fees paid to the UCITS serve to offset the costs incurred by the UCITS to invest and disinvest investors' monies. Fees which are not paid to the UCITS are attributed to the Management Company, the Promoter, etc.

Fees payable by the investor on subscriptions and redemptions	Basis	Rate
		A, B, E, I and R units
Subscription fee payable to third parties Subscription fee payable to the FCP	<i>Net asset value x number of units</i>	maximum 4.50% None
Redemption fee payable to third parties Redemption fee payable to the FCP	<i>Net asset value x number of units</i>	None

- **Operating and management fees:**

These fees cover all the costs invoiced directly to the UCITS, except transaction costs. Transaction costs include intermediary fees (brokerage, local taxes, etc.) as well as transaction fees, if any, that may be charged by the custodian and the management company, in particular.

The following fees may be charged in addition to operating and management fees:

- Performance fees: these reward the Management Company when the UCITS exceeds its objectives. They are therefore charged to the UCITS.
- Transaction fees invoiced to the UCITS.
- A portion of the income from temporary purchases or sales of securities.

For more details about the fees charged to the UCITS, please refer to section B of the simplified prospectus.

Fees charged to the UCITS	Basis	Rate			
		A and B units	E units	I units	R units
Operating and management fees inclusive of tax (including all charges other than transaction costs, performance fees and fees related to investments in UCITS or investment funds)	Net assets of the FCP	Maximum of 2.00% including taxes*	Maximum of 2.40% including taxes*	Maximum of 1.00% including taxes*	Maximum of 1,15% including taxes*
Performance fee (**)	Net assets of the FCP	15% of the outperformance compared with the MSCI AC World Index (converted into euro for units issued in Euro and US dollars for units issued in US dollars), excluding net dividends, where the FCP's net asset value is positive			None
Transaction fees charged by service providers -Custodian: between 0 and 50% -Management company: between 50 and 100%	On the transaction amount	Variable according to the instrument and more particularly: <ul style="list-style-type: none"> ▪ Per transaction: from 0% to a maximum of 0.50% + VAT ▪ On redeeming coupons: from 0% to a maximum of 5% + VAT 			

* Inclusive of all taxes. In this activity, the Management Company has not opted for VAT.

() Performance fees**

Performance fees are payable to the Management Company in accordance with the following procedure:

- Benchmark: MSCI AC World Index (converted into euro for units issued in Euro and US dollars for units issued in US dollars), excluding net dividends, in the accounting currency of the FCP.
- In the event of a positive performance of the net asset value of the FCP and the benchmark, and where the FCP's net asset value outperforms the benchmark, a provision of 15% net of tax shall be applied to the outperformance of the FCP's net asset value in comparison to the benchmark.
- In the event of a positive performance of the FCP's net asset value and a negative performance of the benchmark, a provision of 15% net of tax shall be applied to the absolute performance of the FCP's net asset value.
- The first period begins on the date of the FCP's creation and ends on 31 December 2008.

ECOSPHERE WORLD

- The reference periods end with the last NAV of the financial year (end of December).
- The performance fees shall be accrued each time the net asset value is calculated.
- They are paid annually following the financial year-end of the FCP.

No performance fees will be charged in any of the following cases:

- The FCP's performance since the previous financial year-end is negative;
- The FCP's performance since the previous financial year-end is lower than that of its benchmark.

In the event of an underperformance, the accrued performance fees are readjusted by means of a reduction in the existing provision. Such reduction cannot exceed the amount already accrued.

➤ **Tax regime:**

- Taxation of the UCITS: as FCPs have a co-ownership structure, they are exempt from corporate tax and are deemed transparent.
- Eligibility (PEA, DSK, etc.): none
Depending on your tax status, any capital gains and income resulting from the ownership of units of the UCITS may be subject to tax. We advise you to obtain further information in this regard from the UCITS' promoter.

COMMERCIAL INFORMATION

➤ **Subscription and redemption procedures:**

- Subscription and redemption procedures: subscription and redemption requests are centralised each day before 11:00 by LA COMPAGNIE FINANCIÈRE EDMOND DE ROTHSCHILD BANQUE and are executed, in units or thousandths of a unit, on the basis of the net asset value of the same date and calculated on the following business day.

For tax purposes, conversions from one class of units to another are treated as a redemption transaction followed by a new subscription. Consequently, the tax regime applicable to each subscriber depends on the taxation provisions applicable to the subscriber's individual situation and/or the Fund's investment jurisdiction. In case of doubt, subscribers should contact their advisor to obtain information about the tax regime applicable to them.

- Minimum initial subscription amount:
A, B and E units: 1 unit
I and R units: € 500,000
- Minimum subsequent subscription amount: A, B, E, I and R units: 1 thousandth of a unit
- Address of the institution appointed to receive subscription and redemption orders:
LA COMPAGNIE FINANCIERE EDMOND DE ROTHSCHILD BANQUE
47 rue du Faubourg Saint-Honoré, 75401 PARIS CEDEX 08
- Place and method of publication of the net asset value:
LA COMPAGNIE FINANCIERE EDMOND DE ROTHSCHILD BANQUE
47 rue du Faubourg Saint-Honoré, 75401 PARIS CEDEX 08

➤ **Financial year-end:**

Last trading day of December.

➤ **Dividend policy:**

Net gains/losses are attributed to the five classes of units in proportion to their share in the total net assets
Units accumulate on their income.

➤ **Date and frequency of the calculation of the net asset value:**

Daily, with the exception of public holidays and days on which the French markets are closed (official calendar of Euronext Paris S.A.)

➤ **Place and method of publication or communication of the net asset value:**

LA COMPAGNIE FINANCIERE EDMOND DE ROTHSCHILD BANQUE
47 rue du Faubourg Saint-Honoré, 75401 PARIS CEDEX 08

➤ **The reference currency for valuation is Euro:**

<i>Type of units</i>	<i>ISIN code</i>	<i>Dividend policy</i>	<i>Currency</i>
A units	FR0010508622	Accumulation	EURO
B units	FR0010933820	Accumulation	USD
E units	FR0010594069	Accumulation	EURO
I units	FR0010781302	Accumulation	EURO
R units	FR0010849711	Accumulation	EURO

➤ **Creation date:**

This UCITS was approved by the *Autorité des marchés financiers* (AMF – French Financial Markets Authority) on 24 August 2007. It was established on 28 September 2007.

**PERFORMANCE OF THE UCITS AT R UNITS
(EURO)**

Performance data for R units (created on 3rd February 2010) is not yet available.

FEES CHARGED TO THE UCITS FOR THE LAST FINANCIAL YEAR ENDED 31 DECEMBER 2009 – A UNITS

Operating and management fees	1.87%	
Costs incurred as a result of investment in other UCITS or investment funds	-	
<i>These costs are based on:</i>		
. <i>Costs related to the purchase of UCITS and investment funds</i>		-
. <i>Deductions made for trailer fees negotiated by the management company of the investing UCITS</i>		-
Other fees charged to the UCITS	1.23%	
<i>These other fees consist of:</i>		
. Performance fees		0.46%
. Transaction fees		0.77%
Total charged to the UCITS for the last financial year	3.10%	

FEES CHARGED TO THE UCITS FOR THE LAST FINANCIAL YEAR ENDED 31 DECEMBER 2009 – E UNITS

Operating and management fees	2.38%	
Costs incurred as a result of investment in other UCITS or investment funds	-	
<i>These costs are based on:</i>		
. <i>Costs related to the purchase of UCITS and investment funds</i>		-
. <i>Deductions made for trailer fees negotiated by the management company of the investing UCITS</i>		-
Other fees charged to the UCITS	1.49%	
<i>These other fees consist of:</i>		
. Performance fees		0.46%
. Transaction fees		0.77%
Total charged to the UCITS for the last financial year	3.87%	

FEES CHARGED TO THE UCITS FOR THE LAST FINANCIAL YEAR ENDED 31 DECEMBER 2009 – I UNITS

Operating and management fees	0.99%	
Costs incurred as a result of investment in other UCITS or investment funds		
<i>These costs are based on:</i>		
. <i>Costs related to the purchase of UCITS and investment funds</i>		-
. <i>Deductions made for trailer fees negotiated by the management company of the investing UCITS</i>		-
Other fees charged to the UCITS	0.77%	
<i>These other fees consist of:</i>		
. <i>Performance fees</i>		-
. <i>Transaction fees</i>		0.77%
Total charged to the UCITS for the last financial year	1.76%	

Operating and management fees:

These fees cover all the costs invoiced directly to the UCITS, except transaction costs and, where applicable, performance fees. Transaction costs include intermediary fees (brokerage, stock market taxes, etc.) and transaction fees (see below).

Operating and management fees include, inter alia, investment management, administration and accounting fees as well as custody, safekeeping and audit fees.

Costs incurred by the purchase of UCITS and/or investment funds:

Some UCITS invest in other UCITS or in foreign investment funds (target UCITS). Buying and holding a target UCITS (or investment Fund) causes the investing UCITS to bear two types of cost:

- Subscription and redemption fees: however, the portion of these fees charged by the target UCITS is considered a transaction cost and is therefore not included here.
- Fees charged directly to the target UCITS which constitute indirect costs for the investing UCITS.

In certain cases, the investing UCITS can negotiate trailer fees; that is, reductions in some of these fees. These reductions will reduce the total fees which the investing UCITS actually pays.

Other fees charged to the UCITS:

Other fees may be charged to the UCITS. These are:

- Performance fees: these reward the Management Company when the UCITS exceeds its objectives.
- Transaction fees: transaction fees are fees charged to the UCITS on each portfolio transaction. These fees are explained in detail in the full prospectus. The Management Company may benefit from these fees under the conditions set out in section A of the simplified prospectus.

Investors should note that these other expenses are liable to fluctuate substantially from year to year and that the figures shown here are those related to the previous financial year.

INFORMATION ON TRANSACTIONS FOR THE LAST FINANCIAL YEAR ENDED 31 DECEMBER 2009

Transaction costs applicable to the equity portfolio amounted to 0.94% of the average net assets. The turnover rate of the equity portfolio was -28.76% of the average net assets.

Transactions carried out between the Management Company on behalf of UCITS under its management and affiliated companies:

None.

DETAILED MEMORANDUM**II. GENERAL CHARACTERISTICS:****1.1. UCITS STRUCTURE:**

- **Name:**
ECOSPHERE WORLD
- **Legal form and member state in which the UCITS was established:**
French mutual fund (FCP).
- **Creation date and intended lifetime:**
This FCP was created on 28 September 2007 for a period of 99 years.
- **Fund overview:**
The FCP consists of five unit classes.
The FCP does not have any sub-funds.

<i>Type of units</i>	<i>ISIN code</i>	<i>Dividend policy</i>	<i>Currency</i>	<i>Minimum initial subscription amount:</i>	<i>Target investors</i>
A units	FR0010508622	Accumulation	EURO	1 unit	All investors
B units	FR0010933820	Accumulation	US Dollar	1 Unit	All investors
E units	FR0010594069	Accumulation	EURO	1 unit	All investors more specifically, intended to be sold by distributors selected for this purpose by the Management Company
I units	FR0010781302	Accumulation	EURO	€ 500,000	Legal entities

➤ **Accounting delegated to:**

CACEIS FASTNET

Société anonyme with share capital of €5,800,00

Registered office: 1-3 Place Valhubert, 75026 Paris Cedex 13

III. OPERATING AND MANAGEMENT PROCEDURES

2.1 GENERAL CHARACTERISTICS:

➤ Characteristics of the units:

- ISIN code: A units: FR0010508622
- B units: FR0010933820
- E units: FR0010594069
- I units: FR0010781302
- R units: FR0010849711
- Rights: the FCP is a co-ownership of financial instruments and deposits whose units are issued and redeemed at the request of investors at their net asset value increased or decreased accordingly by fees and commissions. Unitholders have a co-ownership right in the assets of the FCP in proportion to the number of units they hold.
- Entry into a register: the units shall be admitted to EUROCLEAR FRANCE and shall qualify as registered units prior to admittance and as bearer units once admitted. The rights of holders of registered units shall be represented by an entry in a register held by the Custodian and the rights of holders of bearer units shall be represented by an entry in the account held by the Central Custodian (EUROCLEAR FRANCE) by way of sub-affiliation in the name of the Sub-custodian.
- Voting rights: no voting rights are attributed to the ownership of units. Decisions concerning the FCP are taken by the Management Company.
- Form of units: bearer or registered units.
A, B, E, I and R units are expressed in whole units or thousandths of units.

➤ Year-end:

Last trading day of December.

➤ Tax regime:

As FCPs have a co-ownership structure, they are exempt from corporate tax and are deemed transparent. Therefore, the gains or losses realised when redeeming units of the FCP (or at the time the Fund is dissolved) represent capital gains or losses and are taxed as capital gains or losses on transferable securities applicable to each unitholder depending on their individual situation (country of residence, natural person or legal entity, place of subscription, etc.). Such capital gains may be subject to withholding tax if the unitholder is not resident in France for tax purposes. Furthermore, unrealised capital gains may be subject to taxation in certain cases. Finally, unitholders should note that the FCP is an accumulation UCITS that does not provide for the distribution of dividends.

Prior to subscribing units of the FCP, unitholders unsure of their tax situation are advised to contact a tax adviser for further information about the specific tax treatment that will be applicable to them.

2.2 SPECIFIC PROVISIONS:

➤ Classification:

International equities.

➤ Investment objective:

The objective of the FCP is to actively invest in environmental themes by selecting equities on a discretionary basis, investing in particular in alternative and renewable energy sources (solar, hydro electric, wind, biomass, nuclear, fuel cells, etc.), and in companies involved in combating the greenhouse effect and global warming. Over a recommended investment horizon of more than 5 years, the FCP aims to outperform the MSCI AC World Index (converted into euro for units issued in Euro and US dollars for units issued in US dollars), excluding net dividends.

➤ **Benchmark:**

The Morgan Stanley Capital International All Countries (MSCI AC) World Index (Bloomberg ticker: MXWD), expressed in euro for units issued in Euro and US dollars for units issued in US dollars and dividends not reinvested reflects the fluctuations of approximately 2,400 stocks on the large international markets. This data is available at www.msci.com.

As the FCP does not use an index-based management strategy, its performance may differ substantially from the benchmark, which serves only as a comparison index.

➤ **Investment strategy:**

The FCP implements an active "stock-picking" management strategy, selecting international stocks connected to environmental themes; these stocks shall represent a minimum of two thirds of the net assets.

These equities shall be selected in accordance with the strategy described hereinafter:

- Selection of the investment universe is based on the use of quantitative filters allowing the identification of stocks which shall be considered admissible and which shall be subject to further analysis. The investment universe in which the FCP invests includes equities of all capitalisations;
- External research is used to assist managers in conducting their own research on a reduced number of stocks included in the investment universe. External analysts are also subject to a selection process defined by the Management Company.
- Stocks chosen in this way are subject to a quantitative and qualitative analysis. The manager shall select the securities exhibiting the most promising potential in terms of growth and performance in order to construct a portfolio of approximately 50 to 100 stocks.

Depending on the Fund manager's expectations regarding the evolution of the equity markets, the FCP may *invest* up to one third of the net assets in debt securities and money market instruments traded on the international markets. Such securities (rated at least "investment grade", but with no maximum duration) are selected according to their expected yield.

Subject to a limit of 100% of the net assets, the FCP may invest in forward financial instruments traded on international regulated, organised or OTC markets.

. Description of the asset classes:

o *Equities:*

Between two thirds and 110% of the portfolio's net assets shall be invested in and/or exposed to equities linked with environmental themes, without restriction in terms of capitalisation or geographic sector. The securities selected may or may not carry voting rights.

o *Debt securities and money market instruments:*

The FCP may invest up to one third of the net assets in fixed and/or floating rate debt securities or money market instruments issued by public or similar issuers, as well as by corporate issuers, without restriction in terms of maturity or geographic location. Nevertheless, such instruments issued in the emerging markets will represent a maximum of 10% of the net assets. These instruments shall be rated "investment grade", as defined by the independent ratings agencies.

In the context of cash management, the assets of the FCP may comprise debt securities or bonds. Such instruments, with a residual duration of generally less than three months and without restriction in terms of allocation between public and private issuers, shall be issued by sovereign states, similar institutions or even by entities with a short-term rating equivalent or superior to A2 as awarded by Standard & Poor's or any other equivalent rating awarded by any other independent agency.

○ *Shares or units of other UCITS or investment funds:*

The FCP is a UCITS in accordance with Directive 85/611/EEC, amended by Directives 2001/107/EC and 2001/108/EC.

The FCP may invest up to 10% in units or shares of the following UCITS:

- coordinated French or European UCITS investing in any asset class, in order to diversify exposure to other asset classes;
- coordinated French or European index funds, including ETFs, in order to increase exposure to the equity markets or diversify exposure to other asset classes.

These UCITS may be managed by the Management Company or an affiliated company.

○ *Derivatives:*

Subject to a limit of 100% of the net assets, the FCP may invest in forward financial instruments traded on international regulated, organised or OTC markets as follows:

- Equity options contracts, in order to both reduce equity volatility and increase the FCP's exposure to a limited number of equities;
- Futures contracts, in order to manage equity exposure;
- Forward currency contracts or currency swaps, in order to hedge exposure to specific currencies with respect to equities from outside the eurozone.

○ *Embedded derivatives:*

The FCP may use securities with embedded derivatives up to the limit of 100% of the net assets. The strategy for using embedded derivatives is the same as that described for derivatives.

For example, it includes warrants and other instruments already mentioned in the section entitled "Assets", which may be classified as securities with embedded derivatives depending on the evolution of the legislation.

○ *Deposits:*

None.

○ *Cash borrowings:*

In order to manage its cash, the Fund may use cash borrowing transactions up to the limit of 10% of the net assets.

○ *Temporary purchases and sales of securities:*

The FCP will also use repurchase agreements to generate returns on its cash on a day-to-day basis, subject to the limit of 10% of the net assets.

Additional information on the fees applicable to temporary purchases and sales of securities is provided in the section entitled Fees and Commissions.

➤ **Risk profile:**

Your money shall be invested primarily in financial instruments selected by the Management Company. These instruments shall be subject to market trends and fluctuations.

Main risks:

· Risk of capital loss:

The UCITS does not guarantee or protect the capital invested; investors may therefore not get back the full amount of their initial capital invested even if they hold their units for the recommended investment period.

· Discretionary management risk:

The discretionary management style is based on expectations regarding the performance of the equity markets. However, the Fund may not be invested in the best-performing stocks at all times. The FCP may not be able to meet its objectives.

· Equity risk:

The Fund manager seeks equities that may outperform the markets, in both rising and falling markets. In the event of a downturn of the equity markets, the net asset value of the FCP could drop. The FCP may have significant exposure to these markets (up to 110% of the net assets, mainly in the event of substantial fluctuations of subscriptions/redemptions); its value may fall faster than the markets. As its objective is to invest in companies of all capitalisations, the FCP may therefore invest in small capitalisation companies. Investors are reminded that the small capitalisation markets are intended for companies that, due to their specific characteristics, may represent a risk for investors.

The FCP may invest in stocks traded on the emerging markets. The risk linked to these investments stems particularly from the operating and supervision conditions of these markets, which may deviate from the standards that exist on the large international exchanges and thus trigger sharper and more abrupt market movements.

· Sectorial risk:

The FCP presents a sectorial risk as it invests in a specific business sector; that is, the environmental sector. This sector is particularly sensitive to changes in environmental and sustainable development legislation. A downturn in this market may lead to a decline in the net asset value.

· Currency risk:

The capital may be exposed to foreign exchange risk where the securities or investments it is composed of are denominated in a currency other than that of the FCP.

Currency risk is the risk of capital loss incurred when an investment is made in a currency other than the euro and such currency depreciates against the euro on the currency market. Up to 110% of the FCP's net assets may be exposed to currency risk.

Risk linked to the currency of units other than the currency of the FCP:

The unit holder, subscribing in currencies other than the reference currency of the FCP (EURO) is exposed to the exchange rate risk of up to 110% of the assets.

The value of the assets may decline if the exchange rates change, which may result in a decrease in the net asset value of the fund

Secondary risk:

· Interest rate risk:

Interest rate risk results in a fall in the capital value of the Fund in the event of an upturn of the interest rate curve.

Interest rate risk is limited to debt securities and money market instruments held directly or via other UCITS, and accounting for a maximum of one third of the FCP's net assets.

· Credit risk:

Credit risk is the risk whereby the issuer of bond or money market instruments cannot meet its obligations.

By using securities chosen from among issues with a minimum rating of "investment grade", the FCP greatly reduces the risk linked to the default of issuers. However, these defaults may also have an impact on the values of the issuers in question.

In relation to cash management, credit risk is limited thanks to the use of securities issued by entities with a short-term rating equal to or greater than A2 as awarded by Standard & Poor's or any other equivalent rating awarded by another independent agency.

· Liquidity risk:

The FCP may invest in companies of all sizes, directly or via a UCITS. Equities and UCITS specialising in small capitalisation companies may expose the FCP to liquidity risk: there is a risk that the manager will be unable to sell a security at a reasonable price within a certain time. By definition, small capitalisations have a smaller number of securities in circulation than large capitalisations. Their transaction volume is therefore more limited, and it may be more difficult to find a buyer/seller at a reasonable price at any given moment.

➤ **Target subscribers and typical investor profile:**

A and E units are intended for all investors wishing to subscribe in Euro.

More specifically, E units are intended to be sold by distributors selected for this purpose by the Management Company.

B units are intended for all investors wishing to subscribe in USD

I and R units are intended for legal entities with the capacity to make an initial subscription of EUR 500,000 (not USD).

Minimum initial subscription amount:

- A, B and E units: 1 unit
- I and R units: € 500,000

This FCP is particularly suitable for investors wishing to achieve greater returns on their savings via an investment strategy which primarily targets the environmental sector.

The appropriate amount to be invested in this FCP shall depend on your personal situation. To determine their level of investment, investors are invited to seek professional advice in order to diversify their investments and to determine the proportion of their financial portfolio or their assets to be invested in this FCP bearing in mind, more specifically, the recommended investment period and exposure to the aforementioned risks, their personal assets, their needs and their own objectives. In all cases, unitholders must sufficiently diversify their portfolio so as not to be solely exposed to the risks of this FCP.

. Recommended minimum investment period: > 5 years.

➤ **Calculation and allocation of dividends:**

The net income for the financial year is equal to the amount of interest, dividends, premiums and prizes, director's fees as well as all proceeds generated by the securities held in the portfolio of the FCP, plus income generated by temporary cash holdings, less management fees, possible depreciation allowances and borrowing costs.

Distributable income is equal to the net income for the financial year plus retained earnings, plus or minus the balance of the income equalisation accounts for the last financial year.

Net gains/losses are attributed to the five classes of units in proportion to their share in the total net assets.

Distributable income shall be fully accumulated, with the exception of those amounts which are subject to compulsory distribution by law.

➤ **Frequency of distributions:**

None.

➤ **Characteristics of the units:**

The FCP consists of five unit classes.

A, E, I and R units are denominated in euro.

B units are denominated in US Dollars

All units are issued in whole units or thousandths of units.

➤ **Subscription and redemption procedures:**

- Date and frequency of the calculation of the net asset value: daily, with the exception of public holidays and days on which the French markets are closed (official calendar of Euronext Paris S.A.).

- Initial net asset value:

A units: € 100

B units: \$ 100

E units: € 100

I and R units: € 100

- Minimum initial subscription amount:

A, B and E units: 1 unit

I and R units : € 500,000

- Minimum subsequent subscription amount:

,A, B, E, I and R units: 1 thousandth of a unit.

- Subscription and redemption procedures:

Subscription and redemption requests are centralised each day before 11:00 by LA COMPAGNIE FINANCIÈRE EDMOND DE ROTHSCHILD BANQUE and are executed, in units or thousandths of a unit, on the basis of the net asset value of the same date and calculated on the following business day. For tax purposes, conversions from one class of units to another are treated as a redemption transaction followed by a new subscription. Consequently, the tax regime applicable to each subscriber depends on the taxation provisions applicable to the subscriber's individual situation and/or the Fund's investment jurisdiction. In case of doubt, subscribers should contact their advisor to obtain information about the tax regime applicable to them.

- Address of the institution appointed to receive subscription and redemption orders in France:

LA COMPAGNIE FINANCIERE EDMOND DE ROTHSCHILD BANQUE
47 rue du Faubourg Saint-Honoré, 75401 PARIS CEDEX 08

- Place and method of publication of the net asset value:

LA COMPAGNIE FINANCIERE EDMOND DE ROTHSCHILD BANQUE
47 rue du Faubourg Saint-Honoré, 75401 PARIS CEDEX 08

➤ **Fees and expenses:**

- Subscription and redemption fees:

Subscription fees increase the subscription amount paid by the investor, while redemption fees decrease the redemption proceeds paid to the investor. The fees paid to the FCP serve to offset the costs incurred by the FCP to invest and disinvest investors' monies. Fees which are not paid to the UCITS are attributed to the Management Company, the Promoter, etc.

Fees payable by the investor on subscriptions and redemptions	Basis	Rate A,B, E, I and R units
Subscription fee payable to third parties	<i>Net asset value x number of units</i>	maximum 4.50%
Subscription fee payable to the FCP		None
Redemption fee payable to third parties	<i>Net asset value x number of units</i>	None
Redemption fee payable to the FCP		None

- Operating and management fees:

These fees cover all the costs invoiced directly to the UCITS, except transaction costs. Transaction costs include intermediary fees (brokerage, local taxes, etc.) as well as transaction fees, if any, that may be charged by the Custodian and the Management Company, in particular.

The following fees may be charged in addition to operating and management fees:

- Performance fees. These reward the Management Company when the UCITS exceeds its objectives. They are therefore charged to the UCITS.
- Transaction fees invoiced to the UCITS.
- A portion of the income from temporary purchases or sales of securities.

For more details about the fees charged to the UCITS, please refer to section B of the simplified prospectus.

Fees charged to the UCITS	Basis	Rate			
		A, B, units	E units	I units	R units
Operating and management fees inclusive of tax (including all charges other than transaction costs, performance fees and fees related to investments in UCITS or investment funds)	Net assets of the FCP	Maximum of 2.00% including taxes*	Maximum of 2.40% including taxes*	Maximum of 1.00% including taxes*	Maximum of 1,15% including taxes*
Performance fee (**)	Net assets of the FCP	15% of the outperformance compared with the MSCI AC World Index (converted into euro for units issued in Euro and US dollars for units issued in US dollars), excluding net dividends, where the FCP's net asset value is positive			None
Transaction fees charged by service providers -Custodian: between 0 and 50% -Management company: between 50 and 100%	On the transaction amount	Variable according to the instrument and more particularly: <ul style="list-style-type: none"> ▪ Per transaction: from 0% to a maximum of 0.50% + VAT ▪ On redeeming coupons: from 0% to a maximum of 5% + VAT 			

* Inclusive of all taxes. In this activity, the Management Company has not opted for VAT.

In an exceptional case where a sub-custodian applies a transfer fee for a particular transaction not described in the provisions mentioned above, a description of the transaction and the transaction fees charged shall be specified in the management report of the UCITS.

(**) Performance fees

Performance fees are payable to the Management Company in accordance with the following procedure:

- Benchmark: MSCI AC World Index (converted into euro for units issued in Euro and US dollars for units issued in US dollars), excluding net dividends, in the accounting currency of the Fund.
- In the event of a positive performance of the net asset value of the FCP and the benchmark, and where the FCP's net asset value outperforms the benchmark, a provision of 15% net of tax shall be applied to the outperformance of the FCP's net asset value in comparison to the benchmark.
- In the event of a positive performance of the FCP's net asset value and a negative performance of the benchmark, a provision of 15% net of tax shall be applied to the absolute performance of the FCP's net asset value.
- The first period begins on the date of the FCP's creation and ends on 31 December 2008.
- The reference periods end with the last NAV of the financial year (end of December).
- The performance fees shall be accrued each time the net asset value is calculated.
- They are paid annually following the financial year-end of the FCP.

No performance fees will be charged in any of the following cases:

- The FCP's performance since the previous financial year-end is negative;
- The FCP's performance since the previous financial year-end is lower than that of its benchmark.

In the event of an underperformance, the accrued performance fees are readjusted by means of a reduction in the existing provision. Such reduction cannot exceed the amount already accrued.

- Procedure for the selection of intermediaries:

The manager selects intermediaries which must be included in the list of intermediaries held by the Management Company as part of the procedures of the GROUPE EDMOND DE ROTHSCHILD. This list is compiled on the basis of objective criteria which specifically take into account the quality of services rendered and the fee schedules.

- Calculation and allocation of the proceeds resulting from temporary purchases and sales of securities and any equivalent transaction under foreign law:

Repurchase agreements are conducted via the intermediary of La Compagnie Financière Edmond de Rothschild Banque according to the market conditions prevailing at the time of the transaction.

The Management Company does not receive any fees in relation to these transactions; such fees are paid to the Custodian.

IV. COMMERCIAL INFORMATION:

➤ Information for investors

Redemption and subscription orders in respect of units are centralised by:

LA COMPAGNIE FINANCIERE EDMOND DE ROTHSCHILD BANQUE

47 rue du Faubourg Saint-Honoré, 75401 PARIS CEDEX 08

Telephone: 00 33 (0)1 40 17 25 25

All requests for information about the FCP may be sent to the promoter.

V. INVESTMENT RULES

In accordance with the provisions of the French Monetary and Financial Code (*Code Monétaire et Financier*) prevailing on the publication date of this Prospectus, the FCP is subject to the investment regulations applicable to coordinated UCITS that cannot invest more than 10% in other coordinated French or European UCITS.

Method used to calculate the commitment: the FCP shall use the linear approximation method to calculate the ratio of commitment on forward financial instruments.

VI. ASSET VALUATION & ACCOUNTING RULES

➤ Asset valuation rules:

The net asset value per unit is calculated in accordance with the valuation rules specified below; the application procedures are set out in detail in the notes to the annual financial statements. The valuation is calculated on the basis of closing prices.

- Securities traded on French or foreign regulated markets are valued at their market price. The reference market value is calculated in accordance with the terms and conditions determined by the Management Company and detailed in the note to the annual financial statements;
- Transferable debt instruments and similar securities that are not traded in large volumes are valued by means of an actuarial method; the rate used is that applied to issues of equivalent securities plus or minus, where applicable, a differential reflecting the issuer's specific characteristics. Nevertheless, transferable debt securities with low sensitivity and a residual maturity of less than or equal to three months may be valued using a linear method. The means of application of these rules is decided by the Management Company and set out in detail in the notes to the annual financial statements;
- For transferable securities which have not been priced on the valuation day as well as for other balance sheet items, the Management Company corrects their valuation in order to take into account any likely event-driven fluctuations. Such decision is notified to the Auditor;
- Transactions involving forward financial instruments (futures or options) traded on a French or foreign regulated market are valued at their market value according to the rules defined by the Management Company and set out in detail in the notes to the annual financial statements;
- Transactions involving forward financial instruments (futures or options) or swaps concluded on over-the-counter markets approved by regulations applicable to UCITS are valued at their market value or at a value estimated according to the provisions determined by the Management Company and are set out in detail in the notes to the annual financial statements;
- SICAV shares and FCP units are valued either on the basis of the last known net asset value or last known market price on the valuation day.

➤ **Accounting method:**

The Fund has complied with the accounting rules laid down by the regulations in force and, in particular, with the accounting standards applicable to UCITS.

The FCP has chosen the euro as its accounting currency.

Interest income is recorded on the basis of cashed-in coupons.

The value of all securities denominated in a currency other than the euro shall be converted into euro in accordance with the WMRB exchange rate (fixing of exchange rates in LONDON at 16:00) on the valuation date.

All transactions are recorded exclusive of fees.

ECOSPHERE WORLD MUTUAL FUND (FCP)

MANAGEMENT REGULATIONS

TITLE I ASSETS AND UNITS

ARTICLE 1 – Co-ownership units

The co-owners' rights are represented by units, with each unit corresponding to the same fraction of the Fund's assets. Each unitholder has a co-ownership right in the assets of the Fund proportional to the number of units they hold.

The term of the Fund is 99 years starting from its creation date, except in the event of early dissolution or extension as set forth in the present regulations.

The Fund consists of five unit classes: A,B, E, I and R accumulation units.

The board of the Management Company may decide that A,B, E, I and R units shall be split into thousandths, referred to as fractions of units.

The provisions of the regulations governing the issue and redemption of units shall apply to fractions of units whose value shall always be proportionate to that of the units they represent. Unless otherwise provided, all other provisions of the regulations relating to units shall apply to fractions of units without any need to make a specific provision to that end.

Finally, the board of the Management Company may decide, at its own discretion, to split the units by issuing new units which shall be allocated to unitholders in exchange for their existing units.

The characteristics of the different classes of units and their eligibility requirements are specified in the simplified prospectus and in the detailed memorandum of the FCP.

ARTICLE 2 – Minimum capital

Units may not be redeemed if the assets of the FCP fall below EUR 300,000; if the assets remain below this amount for a period of thirty days, the Management Company shall make the necessary provisions to liquidate the UCITS concerned, or to carry out one of the operations mentioned in Article 411-17 of the AMF General Regulation (transfer of the UCITS).

ARTICLE 3 – Subscription and redemption of units

Units are issued each time a subscription request is received on the basis of their net asset value plus a subscription fee, where applicable.

Redemptions and subscriptions are executed under the conditions and according to the procedures defined in the simplified prospectus and in the detailed memorandum.

Units of the FCP may be admitted to an official stock exchange listing in accordance with the regulations in force.

Subscriptions must be fully paid up on the day the net asset value is calculated. Subscriptions may be made in cash and/or by a contribution in kind in the form of transferable securities. The Management Company is entitled to refuse any securities offered and, for that purpose, must communicate its decision within seven days of the date on which the securities were tendered. If they are accepted, the securities contributed in kind are valued according to the rules laid down in article 4 and the subscription is based on the first net asset value following acceptance of the securities concerned.

Redemptions are made exclusively in cash, except in the event of liquidation of the Fund when unitholders have agreed to be reimbursed in securities. The redemption price is paid by the Custodian within 5 days of the valuation day of the units.

However, if in exceptional circumstances the redemption requires the prior sale of assets held in the Fund, this deadline may be extended to a maximum of 30 days.

With the exception of succession or an inter vivos gift, the sale or transfer of units between unitholders or unitholders and third parties is considered as a redemption followed by a subscription; if this involves a third party, the sale or transfer amount must, where applicable, be supplemented by the beneficiary in order to at least reach the minimum subscription amount stipulated by the simplified and full prospectuses.

By application of article L.214-30 of the *Code Monétaire et Financier*, the French Financial and Monetary Code, the redemption of units by the FCP as well as the issue of new units may be suspended on a temporary basis by the Management Company in exceptional circumstances and if this is deemed necessary to protect the interests of the unitholders.

When the net assets of the FCP have fallen below the minimum threshold set by the regulations, no redemptions may be carried out.

ARTICLE 4 – Calculation of the net asset value

The net asset value is calculated in accordance with the valuation rules specified in the detailed memorandum of the full prospectus.

TITLE II
MANAGEMENT OF THE FUND

ARTICLE 5 - The Management Company

The Fund is managed by the Management Company in accordance with the Fund's investment objectives. The Management Company shall act in all circumstances on behalf of the unitholders and has the exclusive right to exercise the voting rights attached to the securities held in the Fund.

ARTICLE 5 BIS – Operating rules:

The instruments and deposits in which the assets of the UCITS may be invested as well as the investment rules are described in the detailed memorandum of the full prospectus.

ARTICLE 6 – The Custodian

The Custodian is responsible for the custody of the assets held in the Fund, for processing the orders received from the Management Company in relation to the purchase and sale of securities as well as those relating to the exercise of subscription and allotment rights attached to the securities held in the portfolio. It is responsible for all collections and payments.

The Custodian must ensure that decisions taken by the Management Company are lawful. Where applicable, it must take all protective measures that it deems necessary. In the event of a dispute with the Management Company, it shall inform the AUTORITE DES MARCHES FINANCIERS.

ARTICLE 7 - The Statutory Auditor

An Auditor has been appointed by the board of the Management Company for a term of six financial years with the approval of the AUTORITE DES MARCHES FINANCIERS.

The Auditor carries out the checks and audits established by law and, in particular, certifies whenever necessary the fairness and regularity of the financial statements and of the accounting information contained in the management report.

The Auditor's mandate may be renewed.

The Auditor shall inform the AUTORITE DES MARCHES FINANCIERS and the Management Company of the FCP of any irregularities and misstatements observed during the course of his work.

The Auditor shall supervise the valuation of the assets and the determination of exchange ratios used in the event of a conversion, merger or split.

The Auditor shall review all contributions in kind and, as part of his responsibilities, shall establish a report on its valuation and consideration.

The Auditor shall certify the accuracy of the composition of the assets and other information before any publication.

The Auditor's fees are determined by mutual agreement between the Auditor and the board of the Management Company on the basis of an agenda indicating all duties deemed necessary.

In the event of a liquidation, the Auditor shall value the amount of the assets and establish a report on the conditions of such liquidation.

The Auditor certifies the financial statements serving as the basis for the payment of interim dividends.

ARTICLE 8 – The financial statements and the management report

At the end of each financial year, the Management Company prepares the financial statements and a report on the management of the Fund during the last financial year.

The list of assets and liabilities is certified by the Custodian and all of the above documents are reviewed by the Auditor.

The Management Company shall make these documents available to unitholders within four months of the financial year-end and shall notify them of the amount of income attributable to them: these documents are either sent by post at the unitholders' express request or are made available to them at the offices of the Management Company or of the Custodian.

**TITLE III
DIVIDEND POLICY**

ARTICLE 9:

The net income for the financial year is equal to the amount of interest, arrears, dividends, premiums and prizes, director's fees as well as all proceeds generated by the securities held in the portfolio of the Fund, plus income generated by temporary cash holdings, less management fees, possible depreciation allowances and borrowing costs.

Distributable income is equal to the net income for the financial year plus retained earnings, plus or minus the balance of the income equalisation accounts for the last financial year.

Net gains/losses are attributed to the five classes of units in proportion to their share in the total net assets.

Distributable income is accumulated each year, with the exception of those amounts which are subject to compulsory distribution.

**TITLE IV
MERGER – SPLIT – DISSOLUTION – LIQUIDATION**

ARTICLE 10 - Merger - Split

The Management Company may either merge all or part of the assets of the Fund with another UCITS under its management, or split the Fund into two or more FCPs under its management.

Such mergers or splits may only be carried out one month after unitholders have been notified. Such mergers or splits give rise to the issue of a new certificate indicating the number of units held by each unitholder.

ARTICLE 11 - Dissolution - Extension

If the assets of the Fund remain below the amount set in Article 2 above for thirty days, the Management Company shall inform the AUTORITE DES MARCHES FINANCIERS and shall dissolve the Fund (or, where applicable, the sub-fund), except in the event of a merger with another FCP.

The Management Company may dissolve the Fund (or, where applicable, the sub-fund) early; it shall inform unitholders of its decision and from this date subscription and redemption orders shall no longer be accepted.

The Management Company shall also dissolve the Fund if a request is made for the redemption of all of the units, if the Custodian's appointment is terminated and no other Custodian has been appointed, or upon expiry of the Fund's term, unless such term is extended.

The Management Company shall inform the AUTORITE DES MARCHES FINANCIERS by post of the dissolution date and procedure. Lastly, it shall send the AUTORITE DES MARCHES FINANCIERS the Auditor's report.

The Fund's extension may be decided by the Management Company subject to the agreement of the Custodian. Its decision must be taken at least three months before the expiry of the Fund's term and must be communicated to the unitholders and the AUTORITE DES MARCHES FINANCIERS.

ARTICLE 12 - Liquidation

In the event of dissolution, the Custodian or the Management Company is responsible for carrying out the liquidation. For this purpose, they shall receive broader powers to sell the FCP's assets, settle liabilities, if any, and allocate the balance in cash or in securities to the unitholders.

The Auditor and the Custodian shall continue to carry out their functions until the end of the liquidation.

TITLE V
DISPUTES

ARTICLE 13 – Competent courts – Jurisdiction

All disputes relating to the Fund that may arise during the term of the Fund or during its liquidation either between the unitholders or between the unitholders and the Management Company or the Custodian are subject to the jurisdiction of the competent courts.
