

**EDMOND DE ROTHSCHILD EURO SUSTAINABLE GROWTH
(EdR Euro Sustainable Growth)**

Unit: A - ISIN: FR0010505578

UCITS subject to French law

managed by Edmond de Rothschild Asset Management (France), part of the Edmond de Rothschild Group

OBJECTIVES AND INVESTMENT POLICY

Investment objective: The UCITS' investment objective, over the duration of the recommended investment period, is to outperform its benchmark by investing in Eurozone companies, combining financial profitability with the implementation of a policy aiming to respect sustainable development criteria.

Benchmark index: MSCI EMU (NR), net dividends reinvested

Investment policy: The UCITS implements an active stock-picking management strategy, selecting listed stocks from an investment scope comprising mainly eurozone securities. At least 75% of the UCITS will be permanently invested in equities and other PEA-eligible securities and at least 60% will be exposed to shares issued in one or more countries of the eurozone. Up to 110% of the UCITS' net assets may be exposed to equity risk. The UCITS' investment strategy initially relies on the definition of an investment scope that follows a sustainable development strategy deemed conducive to the security appreciating over the term, as assessed in accordance with our internal rating based on environmental, social, governance and stakeholder criteria, and offering promising growth outlook, then secondly, on a stock-picking strategy based on the appreciation potential of the securities.

While conducting their activity, they will therefore focus their research on overall performance – economic and financial, social-societal and environmental – gaining the respect and trust of their internal and external stakeholders.

Depending on the manager's expectations of developments on the equity markets, the UCITS may invest up to 25% of the net assets in debt securities and money market instruments traded on eurozone markets.

These stocks (which are rated at least "investment grade", but with no maximum duration) are selected according to their expected yield.

Subject to a limit of 100% of the assets, the UCITS may invest in financial contracts traded on regulated, organised or over-the-counter European markets.

Furthermore, subject to a maximum limit of 10%, the UCITS may be invested in UCI units or shares.

The UCITS may hold securities not denominated in euros, and may therefore be exposed to currency risk. For hedging purposes, the UCITS may use forward currency contracts or currency swaps. The UCITS may also subscribe to equity options, for both hedging and exposure purposes, and to futures to manage exposure to equities. Exposure to currency risk through currencies other than those of the eurozone is limited to a maximum of 10% of the net assets.

AMF classification: Euro zone equity Euro

Recommended holding period more than 5 years

Frequency of unit buying or selling: Daily, with the exception of public holidays in France and days when the French markets are closed (official calendar of Euronext Paris S.A.), for all orders received by the transfer agent on each NAV calculation day before 12.30 p.m. on that day's net asset value.

Income allocation: Accumulation

Allocation of net realised gains: Accumulation

RISK AND REWARD PROFILE

This rating system is based on the average fluctuations of the net asset value over the past five years, that is the scale of variation of the whole portfolio upwards and downwards. If the net asset value is less than 5 years old, the rating is determined by other regulatory calculation methods. Historic data such as those used to calculate the synthetic indicator may not be a reliable indication of the future risk profile. The current category is neither a guarantee nor an objective. Category 1 does not signify a risk-free investment.

This UCITS is rated in category 5, in line with the type of securities and geographic regions detailed under the heading "Objectives and investment policy", as well as the currency of the unit.

Significant risks not taken into account in this indicator:

Credit risk: risk that the issuer of the debt securities or money market securities may not be able to meet its obligations or that its credit rating may be downgraded. It may also be the result of an issuer defaulting on repayment at maturity.

Liquidity risk: risk linked to the low level of liquidity on the underlying markets, which makes them sensitive to significant purchase/sale trends.

Risk linked to derivatives: the use of derivatives may cause a greater drop in the value of net assets than that of the markets it is invested in.

Counterparty risk: this is the risk that a market participant will default, preventing them from honouring their commitments in respect of your portfolio.

The occurrence of any of these risks may negatively impact the net asset value.

CHARGES

The charges and fees you pay are used to cover the costs of running the UCITS, including the costs of marketing and distributing the units. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	3.00%
Exit charge	0.00%

Charges taken from the fund over a year*

Ongoing charges Unit A	2.37 %
------------------------	--------

Charges taken from the fund under certain specific conditions

Performance fee** Method: 15% per year of the outperformance compared with the benchmark index, the MSCI EMU (NR) Index	0.00 %
--	--------

This is the maximum that might be taken out of your money before it is invested or paid out. Investors may obtain the actual amount of entry and exit charges from their advisor or distributor. In certain cases you may pay less.

*The figure indicated is based on expenses calculated at the end of September 2017. This figure may vary from year to year. It excludes performance fees and intermediary fees except entry and exit charges paid by the UCITS when buying or selling units and/or shares of other UCIs and investment funds.

** The figure corresponds to the performance fee payable after calculating the last net asset value of the reference period.

More detailed information on charges can be found under the "Charges and fees" heading in the prospectus, including, where applicable, information on performance fees and how they are calculated, and is available from the website www.edram.fr

**EDMOND DE ROTHSCHILD EURO SUSTAINABLE GROWTH
(EdR Euro Sustainable Growth)**

Unit: R - ISIN: FR0010850198

UCITS subject to French law

managed by Edmond de Rothschild Asset Management (France), part of the Edmond de Rothschild Group

OBJECTIVES AND INVESTMENT POLICY

Investment objective: The UCITS' investment objective, over the duration of the recommended investment period, is to outperform its benchmark by investing in Eurozone companies, combining financial profitability with the implementation of a policy aiming to respect sustainable development criteria.

Benchmark index: MSCI EMU (NR), net dividends reinvested

Investment policy: The UCITS implements an active stock-picking management strategy, selecting listed stocks from an investment scope comprising mainly eurozone securities. At least 75% of the UCITS will be permanently invested in equities and other PEA-eligible securities and at least 60% will be exposed to shares issued in one or more countries of the eurozone. Up to 110% of the UCITS' net assets may be exposed to equity risk. The UCITS' investment strategy initially relies on the definition of an investment scope that follows a sustainable development strategy deemed conducive to the security appreciating over the term, as assessed in accordance with our internal rating based on environmental, social, governance and stakeholder criteria, and offering promising growth outlook, then secondly, on a stock-picking strategy based on the appreciation potential of the securities.

While conducting their activity, they will therefore focus their research on overall performance – economic and financial, social-societal and environmental – gaining the respect and trust of their internal and external stakeholders.

Depending on the manager's expectations of developments on the equity markets, the UCITS may invest up to 25% of the net assets in debt securities and money market instruments traded on eurozone markets.

These stocks (which are rated at least "investment grade", but with no maximum duration) are selected according to their expected yield.

Subject to a limit of 100% of the assets, the UCITS may invest in financial contracts traded on regulated, organised or over-the-counter European markets.

Furthermore, subject to a maximum limit of 10%, the UCITS may be invested in UCI units or shares.

The UCITS may hold securities not denominated in euros, and may therefore be exposed to currency risk. For hedging purposes, the UCITS may use forward currency contracts or currency swaps. The UCITS may also subscribe to equity options, for both hedging and exposure purposes, and to futures to manage exposure to equities. Exposure to currency risk through currencies other than those of the eurozone is limited to a maximum of 10% of the net assets.

AMF classification: Euro zone equity Euro

Recommended holding period more than 5 years

Frequency of unit buying or selling: Daily, with the exception of public holidays in France and days when the French markets are closed (official calendar of Euronext Paris S.A.), for all orders received by the transfer agent on each NAV calculation day before 12.30 p.m. on that day's net asset value.

Income allocation: Accumulation

Allocation of net realised gains: Accumulation

RISK AND REWARD PROFILE

Lower risk, Higher risk,
 ← potentially lower return potentially higher return →

1	2	3	4	5	6	7
---	---	---	---	----------	---	---

This rating system is based on the average fluctuations of the net asset value over the past five years, that is the scale of variation of the whole portfolio upwards and downwards. If the net asset value is less than 5 years old, the rating is determined by other regulatory calculation methods. Historic data such as those used to calculate the synthetic indicator may not be a reliable indication of the future risk profile. The current category is neither a guarantee nor an objective. Category 1 does not signify a risk-free investment.

This UCITS is rated in category 5, in line with the type of securities and geographic regions detailed under the heading "Objectives and investment policy", as well as the currency of the unit.

Significant risks not taken into account in this indicator:

Credit risk: risk that the issuer of the debt securities or money market securities may not be able to meet its obligations or that its credit rating may be downgraded. It may also be the result of an issuer defaulting on repayment at maturity.

Liquidity risk: risk linked to the low level of liquidity on the underlying markets, which makes them sensitive to significant purchase/sale trends.

Risk linked to derivatives: the use of derivatives may cause a greater drop in the value of net assets than that of the markets it is invested in.

Counterparty risk: this is the risk that a market participant will default, preventing them from honouring their commitments in respect of your portfolio.

The occurrence of any of these risks may negatively impact the net asset value.

CHARGES

The charges and fees you pay are used to cover the costs of running the UCITS, including the costs of marketing and distributing the units. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested or paid out. Investors may obtain the actual amount of entry and exit charges from their advisor or distributor. In certain cases you may pay less.

Charges taken from the fund over a year*

Ongoing charges R units	1.52 %
-------------------------	--------

*The figure indicated is based on expenses calculated at the end of September 2017. This figure may vary from year to year. It excludes performance fees and intermediary fees except entry and exit charges paid by the UCITS when buying or selling units and/or shares of other UCIs and investment funds.

Charges taken from the fund under certain specific conditions

Performance fee	None

III. OPERATING & MANAGEMENT PROCEDURES

3.1 GENERAL FEATURES:

➤ **Unit characteristics:**

- ISIN Codes:

A units: FR0010505578

CR unit: FR0013307717

E units: FR0013287588

I units: FR0010769729

R units: FR0010850198

- Rights:

The Fund is a co-ownership of financial instruments and deposits whose units are issued and redeemed at the request of unitholders at their net asset value, plus or minus charges and fees, as appropriate. Unitholders have co-ownership rights to the Fund's assets in proportion to the number of units they hold.

- Entry on a register:

The units will be listed on Euroclear France and will be treated as registered securities prior to listing, and as bearer securities once listed. The rights of holders of registered units will be represented by an entry in a register held by the custodian and the rights of holders of bearer units will be represented by an entry in the account held by the central custodian (Euroclear France) by way of sub-affiliation in the name of the sub-custodian.

- Voting rights:

No voting rights are attached to the Fund's units. Decisions concerning the Fund are taken by the Management Company.

- Type of unit: Bearer

A, CR, E, I and R units are expressed in whole numbers or in thousandths of units.

➤ **Year-end:**

The last Stock Exchange trading day of September.

➤ **Taxation:**

Since mutual funds have a co-ownership structure, they are exempt from corporation tax and are deemed to be transparent.

Any gains or losses realised when redeeming units of the Fund (or when the Fund is dissolved) therefore constitute capital gains or losses and are subject to the tax on capital gains or losses on transferable securities applicable to each unitholder, depending on their individual circumstances (country of residence, natural person or legal entity, place of subscription, etc.). Such gains may be subject to withholding tax if the unitholder is not a resident of France for tax purposes. In addition, unrealised capital gains may, in some cases, be subject to taxation. Lastly, unitholders are advised that the Fund only contains accumulation units. Prior to subscribing to the Fund, unitholders unsure of their tax situation are advised to contact a tax adviser for further information about the specific tax treatment that will be applicable to them.

➤ **Specific tax system:**

Eligible for the PEA (French equity savings plan).

3.2 SPECIFIC PROVISIONS:

➤ **Classification:**

Equities of Eurozone countries

➤ **Exposure to other UCITS, AIFs or foreign investment funds:**

Up to 10% of net assets.

➤ **Investment objective:**

The UCITS' management objective, over the duration of the recommended investment period, is to outperform its benchmark by investing in Eurozone companies, combining financial profitability with the implementation of a policy aiming to respect sustainable development criteria.

➤ **Benchmark index:**

The UCITS' performance may be compared to the MSCI EMU index, with net dividends reinvested, expressed in euros for units issued in euros and in US dollars for units issued in US dollars. The MSCI EMU index (Bloomberg ticker: NDDUEMU index) is composed of 300 stocks from eurozone countries, selected according to criteria such as stock market capitalisation, transaction volumes and business sector. Weighted by country and business sector, the index endeavours to reflect, as far as possible, the economic structure of the eurozone. The index is calculated and published by MSCI Barra and the data may be consulted at www.msribarra.com.

MSCI Limited's administrator responsible for the MSCI EMU benchmark index is included in the register of administrators and benchmark indices held by ESMA.

In accordance with Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016, the Management Company has a procedure in place for monitoring the benchmark indices used, which sets out the action to be taken in the event that an index materially changes or ceases to be provided.

Since management of the UCITS is not index-linked, its performance may deviate significantly from the benchmark, which is only used for the purpose of comparison.

➤ **Investment strategy:**

• Strategies used:

The UCITS implements an active stock-picking management strategy, selecting listed stocks from an investment scope comprising mainly eurozone securities. At least 75% of the UCITS will be permanently invested in equities and other PEA-eligible securities and at least 60% will be exposed to shares issued in one or more countries of the eurozone. Exposure to equities from outside the eurozone shall not exceed 10% of the net assets. Up to 110% of the UCITS' net assets may be exposed to equity risk.

The UCITS' management philosophy is to invest in companies, the strategic and operational choices of which are guided by sustainable development criteria. While conducting their activity, they will therefore focus their research on overall performance – economic and financial, social-societal and environmental – gaining the respect and trust of their internal and external stakeholders.

The UCITS' investment strategy initially relies on the definition of an investment scope that follows a sustainable development strategy deemed conducive to the security appreciating over the term, as assessed in accordance with our internal rating based on environmental, social, governance and stakeholder criteria, and offering promising growth outlook, then secondly, on a stock-picking strategy based on the appreciation potential of the securities.

These equities will therefore be selected in accordance with the following strategy:

- The selection of the investment scope is based on the combined use of quality filters that allow us to identify companies that meet the best sustainable development criteria and quantity filters that allow us to define the securities with the highest growth outlook. Corporate shares are assessed according to Environmental (E), Social-Societal (S), Corporate Governance (CG), and Stakeholder Relations (SR) responsibility and performance criteria to obtain an internal rating.
- The shares preselected in this way are then further analysed in order to pick the stocks we believe have the highest potential for appreciation. External research is used to help the manager focus their own research on a smaller number of stocks included in the investment scope. The choice of external analysts is also subject to a selection procedure defined by the management company. The UCITS' investment scope comprises equities with no capitalisation restrictions.

Based on the manager's expectations of developments on the equity markets, the UCITS may invest up to 25% of the net assets in debt securities and money market instruments traded on eurozone markets, or up to 10% of the net assets on European markets outside the eurozone. These securities, which are rated at least "investment grade" (i.e. those for which the risk of issuer default is lowest), but with no maximum duration, are selected according to their expected return.

The selection of securities is not based automatically and exclusively on rating criteria. It is mainly based on an internal analysis. Prior to each investment decision, the management company analyses each security on criteria other than its rating. In the event that an issuer in the High Yield category has their rating downgraded, the management company must conduct a detailed analysis in order to decide whether to sell or retain the security, so as to maintain the rating objective.

Subject to a limit of 100% of the assets, the UCITS may invest in financial contracts traded on international regulated, organised or over-the-counter markets.

- On assets:

- *Equities:*

At least 75% of the UCITS will be permanently invested in equities and other PEA-eligible securities and at least 60% will be exposed to shares issued in one or more countries of the eurozone. Exposure to equities from countries outside the eurozone will not exceed 10% of the net assets. The selected securities may or may not have voting rights.

- *Debt securities and money market instruments:*

Up to 25% of the UCITS' net assets may be invested in debt securities and money market instruments of public or equivalent issuers or private issuers, at fixed and/or floating rates, on eurozone markets without restriction as to maturity. These instruments will be issued in the "investment grade" category (i.e. instruments with the lowest issuer default risk) defined by independent rating agencies, or with an equivalent internal rating from the management company.

For cash management purposes, the UCITS' assets may comprise debt securities or bonds. Such instruments, which usually have a residual term of less than three months, shall be issued without restriction in terms of the allocation between public and private debt, by sovereign states, assimilated institutions or entities with a short-term rating of A2 or higher, as awarded by Standard & Poor's or any other equivalent rating awarded by another independent agency, or have an equivalent internal rating from the management

company.

The selection of securities is not based automatically and exclusively on rating criteria. It is mainly based on an internal analysis. Prior to each investment decision, the management company analyses each security on criteria other than its rating. In the event that an issuer in the High Yield category has their rating downgraded, the management company must conduct a detailed analysis in order to decide whether to sell or retain the security, so as to maintain the rating objective.

■ *Shares or units of other foreign UCITS, AIFs or investment funds:*

The UCITS may hold up to 10% of its assets in units or shares of French or foreign UCITS or French AIFs regarded as retail investment funds, regardless of their classification, in order to diversify exposure to other asset classes or to trade in more specific sectors (e.g. technology, healthcare, environment) including exchange-traded funds (ETFs) in order to increase exposure to equity markets or diversify exposure to other asset classes (e.g. commodities or property).

Within this 10% limit, the UCITS may also invest in shares or units of foreign AIFs and/or foreign investment funds that meet the regulatory eligibility criteria.

These UCIs and investment funds may be managed by the management company or by an affiliated company.

■ *Derivatives:*

Subject to a limit of 100% of the assets, the UCITS may invest in financial contracts traded on regulated, organised or over-the-counter markets in order to conclude:

- options contracts for equities so as to reduce equity volatility and increase the UCITS' exposure to a limited number of equities,
- futures contracts in order to manage exposure to equities,
- forward foreign exchange contracts or currency swaps in order to hedge exposure to specific currencies in the case of equities outside the eurozone.

The UCITS will not use total return swaps.

Equity exposure is limited to 110% of the net assets (mainly in the event of a significant variation in subscriptions/redemptions) and interest rate risk exposure to a maximum of 25% of the net assets.

In order to significantly reduce the total counterparty risk of instruments traded over the counter, the management company may receive cash collateral that will be deposited with the custodian and will not be subject to reinvestment.

■ *Embedded derivatives:*

The UCITS may invest up to 100% of its net assets in securities with embedded derivatives. The strategy for the use of embedded derivatives is the same as that set out for derivatives.

This includes, for example, warrants and other instruments previously listed in the "Assets" section, which may be regarded as securities with embedded derivatives, subject to changes in the regulations.

■ *Deposits:*

None.

■ *cash borrowings*

The UCITS does not intend to borrow cash. However, a liability position may exist from time to time due to transactions associated with the UCITS' cash flow (investments and divestments in progress, subscription/redemption transactions, etc.), subject to a limit of 10% of the net assets.

■ *Temporary purchases and sales of securities:*

In order to achieve efficient portfolio management and without deviating from its investment objectives, the UCITS may make temporary purchases of securities involving eligible financial securities or money market instruments, up to 10% of its net assets. More precisely, these transactions will consist of repurchase agreements linked to interest-rate and credit products of eurozone countries, and will be carried out in the context of cash management and/or the optimisation of the UCITS' income.

The expected proportion of assets under management that will be the subject of such a transaction will be 10% of the net assets.

The counterparties of these transactions are first-rate credit institutions domiciled in OECD countries that have a minimum investment grade rating (rating greater than or equal to BBB- by Standard & Poor's or equivalent, or a rating deemed equivalent by the management company).

These counterparties do not have any influence on the composition or management of the UCITS' portfolio.

In order to significantly reduce the total counterparty risk of instruments traded over the counter, the management company may receive cash collateral that will be deposited with the custodian and will not be

subject to reinvestment.

Further information on the fees applicable to temporary purchases and sales of securities is provided in the “Charges and fees” section.

➤ **Risk profile:**

Your money will be invested primarily in financial instruments selected by the Management Company. These instruments will be subject to market trends and fluctuations.

The risk factors described below are not exhaustive. It is the responsibility of each investor to analyse the risk associated with such an investment and to form their own opinion independently of the Edmond de Rothschild Group by obtaining as much specialist advice on such matters as is necessary in order to ensure this investment is appropriate for their financial and legal position and investment horizon.

- Risk of capital loss:

The UCITS does not guarantee or protect the capital invested, so investors may not recover the full amount of their initial capital invested even if they retain the units for the recommended investment period.

- Discretionary management risk:

The discretionary management style is based on anticipating trends on the various markets (equities, bonds, money market, commodities and currencies). There is a risk that the UCITS may not be invested in the best-performing markets at all times. The performance of the UCITS may therefore be lower than the investment objective, and a drop in its net asset value may lead to negative performance.

- Credit risk:

The main risk linked to debt securities and/or money market instruments such as treasury bills (BTFs and BTANs) or short-term negotiable securities is that of issuer default, due either to the non-payment of interest and/or the non-repayment of capital. Credit risk is also linked to the downgrading of an issuer. Unitholders are reminded that the net asset value of the UCITS is likely to fall if a total loss is recorded on a financial instrument following default by an issuer. The inclusion of debt securities in the portfolio, whether directly or through UCIs, exposes the UCITS to the effects of variations in credit quality.

- Interest rate risk:

Exposure to interest rate products (debt securities and money market instruments) makes the UCITS sensitive to interest rate fluctuations. Interest rate risk might result in a fall in the value of the security and, therefore, the NAV of the UCITS in the event of a change in the yield curve.

- Currency risk:

The capital may be exposed to currency risk when the securities or investments of which it is composed are denominated in a currency other than that of the UCITS. Currency risk corresponds to the risk of a fall in the exchange rate for the listing currency of financial instruments in the portfolio against the UCITS' reference currency, the euro, which may lead to a fall in the net asset value.

- Equity risk:

The value of a share may vary for reasons specific to the issuing company but also in response to external, political or economic factors. Fluctuations in the equity and convertible bond markets, whose performance is partly correlated with that of the underlying equities, may lead to substantial variations in net assets, which could have a negative impact on the performance of the UCITS' net asset value.

- Risks associated with small and mid-caps:

Securities of small and mid-cap companies may be significantly less liquid and more volatile than those of large cap companies. As a result, the UCITS' net asset value can fluctuate rapidly and significantly.

- Risk linked to financial and counterparty contracts:

The use of financial contracts may result in the risk of a sharper, more abrupt drop in net asset value than in the markets in which the UCITS invests. Counterparty risk results from the use by the UCITS of financial contracts traded on over-the-counter markets and/or temporary purchases and sales of securities. Such transactions potentially expose the UCITS to the risk of counterparty default and the possible risk of a decrease in its net asset value.

- Liquidity risk:

The markets in which the UCITS trades may occasionally be affected by a lack of liquidity. These market conditions may impact the terms of the prices under which the UCITS may have to liquidate, initiate or

modify positions.

- Risk linked to derivatives:

The UCITS may invest in forward financial instruments.

The use of financial contracts may result in the risk of a sharper, more abrupt drop in net asset value than in the markets in which the UCITS invests.

- Risk linked to the SRI (Socially Responsible Investing) selection:

The UCITS may deviate from the benchmark index if it implements an SRI stock-picking strategy.

- Risks linked to temporary purchases and sales of securities :

The use of these transactions and the management of their guarantees may involve certain specific risks such as operational risks or custody risk. These transactions may therefore lead to a negative effect on the net asset value of the UCITS.

- Legal risk :

This is the risk of inadequately drafting contracts concluded with counterparties for temporary purchases and sales of securities.

➤ **Guarantee or capital protection:**

None

➤ **Eligible subscribers and typical investor profile:**

This UCITS is intended for investors wishing to achieve greater returns on their savings through exposure to eurozone companies with an active sustainable development policy.

A units are intended for all subscribers wishing to subscribe in euros.

All subscribers; CR units may be marketed to retail investors (non-professional or professional) exclusively in the following cases:

- Subscription as part of independent advice provided by a financial advisor or regulated financial entity,
- Subscription as part of non-independent advice, with a specific agreement that does not authorise them to receive or retain trailer fees,
- Subscription by a financial entity regulated on behalf of its client as part of a management mandate,

In addition to the management fees charged by the Management Company, each investor may be required to pay management or advisory fees charged by each financial advisor or regulated financial entity. The management company is not party to such agreements.

Units are not registered for marketing in all countries. They are therefore not open to subscription for retail investors in all jurisdictions.

More specifically, E units are intended to be marketed by Distributors selected for this purpose by the Management Company.

I and R units are intended for legal entities with the capacity to make an initial subscription of EUR 500,000.

The person responsible for ensuring that the criteria related to the ability of subscribers or purchasers have been observed and that they received the required information is the person entrusted with effectively implementing marketing for the UCI.

The units of this UCITS are not and will not be registered in the United States under the US Securities Act of 1933, as amended ("Securities Act 1933"), or under any other law of the United States. These units may not be offered, sold or transferred in the United States (including its territories and possessions), nor may they benefit, directly or indirectly, any US Person (within the meaning of Regulation S of the Securities Act 1933).

The appropriate amount to invest in this UCITS will depend on your individual circumstances. To determine that amount, investors are encouraged to seek professional advice in order to diversify their investments and determine the proportion of their financial portfolio or assets to be invested in this UCITS, more specifically in view of the recommended investment period and exposure to the aforementioned risks, their personal wealth, requirements and specific objectives. In any event, unitholders must diversify their portfolio sufficiently to avoid being exposed solely to the risks of this UCITS.

- Minimum recommended investment period: more than 5 years.

➤ **Procedures for determining and allocating distributable amounts:**

<i>Distributable income</i>	<i>A, CR, E, I and R units</i>
Allocation of net income	Accumulation
Allocation of realised net gains or losses	Accumulation

➤ **Distribution frequency:**

Accumulation units: not applicable

➤ **Unit characteristics:**

The UCITS has 5 unit classes: A, CR, E, I and R units

The A unit is denominated in Euros and expressed in units or thousandths of a unit.

The CR unit is denominated in euros and expressed in units or thousandths of units.

The E unit is denominated in Euros and expressed in units or thousandths of a unit.

The I unit is denominated in Euros and expressed in units or thousandths of a unit.

The R unit is denominated in Euros and expressed in units or thousandths of a unit.

➤ **Subscription and redemption procedures:**

- Date and frequency of net asset value calculation:

Daily, with the exception of public holidays and days on which the French markets are closed (according to the official Euronext Paris S.A. calendar).

- Initial NAV:

A units: 196.74 €

CR unit: 100 €

E units: 100 €

I units: 100 €

R units: 100 €

- Minimum initial subscription:

A units: 1 unit.

CR unit: 1 unit.

E units: 1 unit.

I units: 500,000 €.

R units: 500,000 €.

- Minimum subsequent subscription:

A units: 1 thousandth of a unit.

CR unit: 1 thousandth of a unit.

E units: 1 thousandth of a unit.

I units: 1 thousandth of a unit.

R units: 1 thousandth of a unit.

- Subscription and redemption procedures:

Subscription and redemption requests are cleared before 12.30 p.m. on each net asset value calculation day on the basis of the net asset value on the day in question and calculated on the following business day.

Subscriptions and redemptions of A, CR, E, I and R units are executed in amounts, units or thousandths of units.

For tax purposes, conversions from one unit class to another are treated as a redemption followed by a new subscription. Consequently, the tax system applicable to each subscriber depends on the tax provisions applicable to the subscriber's individual circumstances and/or the investment jurisdiction of the UCITS. In case of uncertainty, subscribers should contact their adviser to obtain information about the tax system applicable to them.

Unitholders are advised that orders sent to institutions responsible for receiving subscription and

redemption orders must take into account the deadline for centralising orders that is applied to the transfer agent, Edmond de Rothschild (France). Consequently, the other institutions named may apply their own, earlier deadline, in order to take into account transfer times to Edmond de Rothschild (France).

- Place and method of publication of the net asset value:

Edmond de Rothschild Asset Management (France)

*Including all taxes.

For this activity, the Management Company has not opted for VAT.

⁽¹⁾ Performance fee

Performance fees are payable to the Management Company in accordance with the following procedure:

- Benchmark index: MSCI EMU from 02 November 2011, expressed in euros for units issued in euros and in US dollars for units issued in US dollars and calculated with net dividends reinvested. The benchmark index was previously the Stoxx Europe 600 with net dividends reinvested.
- The performance fee is calculated by comparing the UCITS' performance with that of an indexed reference asset. The indexed reference asset reproduces the performance of the Fund's benchmark index, adjusted for subscriptions and redemptions.
- When the UCITS outperforms its benchmark index, a provision of 15% net of tax will be applied to the outperformance.

- The reference periods shall end with the last net asset value for the month of September.
- A provision for performance fees will be made each time the net asset value is calculated.
- This performance fee is payable annually after the last net asset value for the reference period has been calculated.

The performance fee is calculated by comparing the UCITS' performance with that of an indexed reference asset. The indexed reference asset reproduces the performance of the UCITS' benchmark index, adjusted for subscriptions and redemptions.

No performance fee will be charged if the UCITS underperforms its benchmark index over the calculation period.

In the event of underperformance, the performance fee provision will be reduced by reversing the provision. The reversal cannot be more than the provision.

When units are redeemed, the Management Company receives the portion of the performance fee corresponding to the units redeemed.

Any retrocession of management fees for the underlying UCIs and investment funds collected by the UCITS will be repaid to the UCITS. The rate of management fees applicable to the underlying UCIs and investment funds will be valued by taking into account any trailer fees collected by the UCITS.

In the exceptional case that a sub-custodian applies a transaction fee not described in the provisions mentioned above for a specific transaction, a description of the transaction and the transaction fees charged will be provided in the management report of the UCITS.

- Procedure for selecting intermediaries:

In accordance with the AMF General Regulations, the Management Company has established a Best Selection/Best Execution policy for intermediaries and counterparties. The purpose of this policy is to select, according to various predetermined criteria, the brokers and intermediaries whose execution policy will achieve the best possible results when executing orders. The Edmond de Rothschild Asset Management (France) Policy is available on its website at www.edram.com.

- Calculation and allocation of the proceeds resulting from temporary purchases and sales of securities and any equivalent transaction under foreign law:

Repurchase agreements are conducted through Edmond de Rothschild (France) according to the prevailing market conditions at the time of the transaction.

The costs and expenses linked to these transactions are borne by the UCITS. Income generated by the transaction is paid in full to the UCITS.

IV. COMMERCIAL INFORMATION

Registered office: 47 rue du Faubourg Saint-Honoré, 75401 Paris Cedex 08, France

Telephone: 33 (0) 1 40 17 25 25

All requests for information about the UCITS may be sent to the promoter.

The Management Company may send the composition of the UCI's portfolio to certain unitholders or their service providers, on the understanding that it is confidential information for the calculation of the regulatory requirements related to Directive 2009/138/EC (Solvency II) in accordance with the guidance issued by the AMF, once more than 48 hours has passed since the publication of the net asset value.

Information relating to the consideration of the criteria concerning compliance with social, environmental and governance quality objectives in the management of this UCITS will appear on the website: www.edram.fr and is included in the UCITS' annual report for the current financial year.

V. INVESTMENT RULES

UCITS compliant with the investment rules set out in European Directive 2009/65/EC.

VI. TOTAL RISK

Method used to calculate total risk: the UCITS uses the commitment method to calculate the total risk ratio of the UCITS associated with financial contracts.

VII. ASSET VALUATION RULES

➤ Asset valuation rules:

The net asset value per unit is calculated in accordance with the valuation rules specified below. The procedures are set out in detail in the notes to the annual financial statements. The valuation is calculated on the basis of closing prices.

- Securities traded on a French or foreign regulated market are valued at their market price. The valuation at the reference market price is calculated in accordance with the procedures determined by the Management Company and set out in detail in the notes to the annual financial statements;
- Debt securities and similar negotiable securities that are not traded in large volumes are valued using an actuarial method, with the rate used being that of issues of equivalent securities plus or minus any differential representing the intrinsic characteristics of the issuer of the security. However, negotiable debt securities with a residual maturity of three months or less and with low sensitivity may be valued using the straight-line method. The procedures governing the application of these rules are decided by the Management Company and set out in detail in the notes to the annual financial statements;
- For transferable securities and other items on the balance sheet whose prices have not been quoted on the valuation date, the Management Company will adjust their valuation to reflect variations that are likely to arise due to current events. The Statutory Auditor is notified of this decision;
- Futures and options traded on French or foreign organised markets are valued at their market value based on the procedures determined by the Management Company and set out in detail in the notes to the annual financial statements;
- Futures, options and swaps concluded on over-the-counter markets authorised by the regulations applicable to UCITS are valued at their market value or at a value estimated in accordance with the procedures determined by the Management Company and set out in detail in the notes to the annual financial statements;
- Shares in SICAVs and units in mutual funds are valued either on the basis of the last known net asset value or on the basis of the last known market price quoted on the valuation date.

➤ Accounting method

The UCITS complies with the accounting rules set forth in the current regulations and, in particular, with the applicable chart of accounts.

The UCITS has chosen the euro as its base accounting currency.

Interest is recorded using the accrued interest method.

All transactions are recorded exclusive of charges.

The value of any security denominated in a currency other than the Euro is translated into Euros on the valuation day.

VIII. REMUNERATION

Edmond de Rothschild Asset Management (France) has a remuneration policy that complies with the provisions of European Directive 2009/65/EC ("UCITS V Directive") and Article 321-125 of the AMF General Regulations which apply to UCITS. The remuneration policy promotes sound and effective risk management

and does not encourage risk-taking that is incompatible with the risk profiles of the UCITS under its management. the Management Company has established suitable measures to prevent any conflicts of interest.

For all Management Company employees who are considered to have a material impact on the risk profile of the UCITS, and identified as such each year using a process involving the Human Resources, Risk and Compliance teams, the remuneration policy involves having part of their variable remuneration (which must remain within reasonable limits in relation to fixed remuneration) deferred over three years.

the Management Company decided not to establish a remuneration committee within the Management Company, choosing instead to delegate it to its parent company Edmond de Rothschild (France). It is organised in accordance with the principles set out in Directive 2009/65/EC.

Details of the Management Company's remuneration policy are available on the company's website: <http://www.edmond-de-rothschild.com/site/united-kingdom/en/asset-management>. A written copy of the policy is available free of charge from the Management Company upon request.

MUTUAL FUND (FCP)

MANAGEMENT REGULATIONS

TITLE I

ASSETS AND UNITS

Article 1 - Co-ownership units

Co-owners' rights are represented by units, with each unit corresponding to the same fraction of the Fund's assets (or the sub-fund, if applicable). Each unitholder has a co-ownership right to the Fund's assets proportional to the number of units they hold.

The term of the Fund is 99 years starting from its creation date, except in the event of early dissolution or extension as set out in these regulations.

The characteristics of the different classes of units and their eligibility requirements are specified in the Fund's prospectus.

Possibility of consolidation or division of units.

The Fund has five unit classes: A, CR, E, I and R accumulation units.

The Management Company's governing body may decide to split A, CR, E, I and R units into thousandths, referred to as fractions of units.

The provisions of the regulations governing the issue and redemption of units shall apply to fractions of units, whose value shall always be proportionate to that of the units they represent. Unless otherwise provided, all other provisions of the regulations relating to units shall apply to fractions of units without any need to make a specific provision to that end.

The governing body of the management company may also decide, at its sole discretion, to divide the units by issuing new units, which shall be allocated to unitholders in exchange for their existing units.

Article 2 - Minimum capital

Units may not be redeemed if the assets of the Fund fall below €300,000. If the assets remain below this amount for a period of 30 days, the Management Company shall make the necessary provisions to liquidate the UCITS concerned or to carry out one of the operations mentioned in Article 411-16 of the AMF General Regulations (transfer of the UCITS).

Article 3 - Subscription and redemption of units

Units are issued at any time at the request of the unitholders based on their net asset value, plus any subscription fees, if applicable.

Redemptions and subscriptions shall be carried out under the terms and conditions set out in the prospectus.

The Mutual Fund's units may be admitted for trading in accordance with the regulations in force.

Subscriptions must be fully paid up on the day the net asset value is calculated. They may be paid in cash and/or through the contribution of financial instruments. The Management Company is entitled to refuse any securities offered and, for that purpose, must announce its decision within seven days of the date on which the securities were tendered. If they are accepted, the securities contributed in kind shall be valued according to the rules laid down in Article 4 and the subscription shall be based on the first net asset value following the acceptance of the securities in question.

Redemptions may be made in cash and/or in kind. If a redemption in kind corresponds to a representative portion of the assets of the portfolio, only the signed written agreement of the outgoing unitholder shall be obtained by the UCITS or management company. If a redemption in kind does not correspond to a representative portion of the assets of the portfolio, all holders shall provide their written agreement authorising the outgoing unitholder to redeem their units against certain specific assets, as explicitly defined in the

agreement.

As an exception to this rule, if the Fund is an ETF, redemptions on the primary market may be made in kind, with the agreement of the portfolio management company and in accordance with the interests of unitholders, under the conditions set out in the Fund's prospectus or regulations. The assets shall then be delivered by the issuing account holder under the conditions set out in the Fund's prospectus.

In general, redeemed assets shall be valued according to the rules set out in Article 4 and the redemption in kind shall be conducted on the basis of the first net asset value following acceptance of the securities concerned.

The redemption price shall be paid by the issuing account holder within five days of the unit valuation date.

However, if in exceptional circumstances the redemption requires the prior sale of assets held in the Fund, this deadline may be extended to a maximum of 30 days.

With the exception of inheritance or an inter vivos gift, the sale or transfer of units between unitholders or unitholders and third parties is considered a redemption followed by a subscription; if this involves a third party, the sale or transfer amount must, where applicable, be supplemented by the beneficiary in order to reach at least the minimum subscription amount stipulated by the prospectus.

Pursuant to Article L.214-8-7 of the French Monetary and Financial Code, redemption by the Fund of its units, as with the issue of new units, may be suspended on a temporary basis by the Management Company in exceptional circumstances and if the interests of the unitholders so require.

If the net assets of the Fund (or the sub-fund, if applicable) fall below the minimum threshold set by the regulations, no redemptions may be carried out (from the sub-fund in question, if applicable).

Possibility of establishing minimum subscription conditions, in accordance with the procedures set out in the prospectus.

The UCITS may entirely or partially cease to issue units on a temporary or permanent basis, pursuant to paragraph three of Article L.214-8-7 of the French Monetary and Financial Code in circumstances that objectively require the closure of subscriptions, such as a maximum number of units issued, a maximum amount of assets reached or the expiry of a specified subscription period. When this mechanism is triggered, existing unitholders will be notified by any means of its activation, the threshold and the objective situation that led to the decision to a partial or total closure. In the event of a partial closure, this notification by any means will specify explicitly the procedures by which existing unitholders may continue to subscribe during this partial closure. Unitholders shall also be notified by any means of the UCITS or management company's decision either to bring the total or partial closure of subscriptions to an end (when the Fund returns below the trigger threshold), or not to bring it to an end (in the event of a change to the threshold or in the objective situation that led to the implementation of this mechanism). Any change to the invoked objective situation or to the trigger threshold must always be made in the best interests of unitholders. The notification by any means will state the precise reasons for these changes.

Article 4 - Calculation of the net asset value

The net asset value of units is calculated in accordance with the valuation rules set out in the prospectus.

TITLE II

MANAGEMENT OF THE FUND

Article 5 - the Management Company

The Fund is managed by the Management Company in accordance with the Fund's investment objectives.

the Management Company shall act in all circumstances in the exclusive interest of the unitholders and shall have the exclusive right to exercise the voting rights attached to the securities held in the Fund.

Article 5 a - Operating rules

The instruments and deposits in which the assets of the UCITS may be invested as well as the investment rules are described in the prospectus.

Article 5 ter – Listing for trading on a regulated market and/or a multilateral trading system

Units may be listed for trading on a regulated market and/or a multilateral trading system in accordance with the regulations in force. If the Fund whose units are listed for trading on a regulated market has an index-based management objective, the Fund must have implemented a system to ensure that the price of its units does not deviate significantly from its net asset value.

Article 6 - The Custodian

The custodian shall perform the tasks entrusted to it by the legal and regulatory provisions in force, as well as those contractually entrusted to it by the Management Company. It must ensure that the decisions taken by the portfolio management company are lawful. Where applicable, it must take all protective measures that it deems necessary. In the event of a dispute with the Management Company, it must inform the AMF.

Article 7 - The Statutory Auditor

A Statutory Auditor is appointed by the Management Company's governing body for six financial years, following the approval of the AMF.

They shall certify the accuracy and truthfulness of accounts.

The Auditor's mandate may be renewed.

The Statutory Auditor must inform the AMF as soon as possible of any fact or decision concerning the undertaking for collective investment in transferable securities of which he/she becomes aware during the course of his/her work, that may:

- 1° Constitute a violation of the legislative or regulatory provisions applicable to the Fund and likely to have a significant impact on the financial position, earnings or assets;
- 2° Affect the conditions or the continuity of its operations;
- 3° Lead to the expression of reservations or the refusal to certify the financial statements.

The Statutory Auditor shall supervise the valuation of the assets and determine the exchange ratios used in the event of a conversion, merger or split.

They shall assess any contribution or redemption in kind within the scope of their responsibility, with the exception of ETF redemptions in kind on the primary market.

They shall check the composition of assets and other items prior to publication.

The Statutory Auditor's fees are determined by mutual agreement between the auditor and the Board of Directors or Management Board of the Management Company on the basis of a schedule of work indicating all of the duties deemed necessary.

The Auditor shall certify the financial statements that serve as the basis for the payment of interim dividends.

Their fees are included in the management fees.

Article 8 - The financial statements and the management report

At the end of each financial year, the Management Company prepares the financial statements and draws up a report on the management of the Fund (and each sub-fund, if applicable) during the previous financial year.

The Management Company draws up, at least every six months and under the supervision of the custodian, an inventory of the Fund's assets.

The Management Company shall make these documents available to unitholders within four months following the end of the financial year and shall inform them of the income to which they are entitled: these documents are either sent by post at the specific request of unitholders or made available to them at premises of the Management Company.

TITLE III**ALLOCATION POLICY FOR DISTRIBUTABLE AMOUNTS****Article 9 - Policy for allocating distributable income**

<i>Distributable income</i>	<i>A, CR, E, I and R units</i>
Allocation of net income	Accumulation
Allocation of realised net gains or losses	Accumulation

TITLE IV

MERGER – SPLIT – DISSOLUTION – LIQUIDATION

Article 10 - Merger - Split

the Management Company may either merge all or part of the Fund's assets with the funds of another UCITS or AIF or split the Fund into two or more mutual funds.

Such mergers or splits may only be carried out after unitholders have been notified. and shall give rise to the issue of a new certificate indicating the number of units held by each unitholder.

Article 11 - Dissolution - Extension

If the assets of the Fund (or the sub-fund, if applicable) remain below the amount set in Article 2 above for a period of 30 days, the Management Company shall inform the AMF and dissolve the Fund (or the sub-fund, where applicable), unless it is merged with another mutual fund.

the Management Company may dissolve the Fund (or the sub-fund, if applicable) early. It must inform the unitholders of this decision and will no longer accept subscription and redemption orders as of this date.

the Management Company shall also dissolve the Fund (or the sub-fund, if applicable) if a request is made for redemption of all of the units, if the Custodian's appointment is terminated and no other Custodian has been appointed, or upon expiry of the Fund's term, unless the term is extended.

the Management Company shall inform the AMF by post of the dissolution date and procedure. It shall also send the Statutory Auditor's report to the AMF.

the Management Company may decide to extend the Fund subject to the agreement of the Custodian. Its decision must be taken at least three months prior to expiry of the Fund's term and must be communicated to the unitholders and to the AMF.

Article 12 - Liquidation

In the event of dissolution, the Management Company shall act as liquidator; failing that, a liquidator shall be appointed by a court of law at the request of any interested party. For this purpose, they shall be given the broadest powers to sell the Fund's assets, settle any liabilities and allocate the balance available between the unitholders in cash or in securities.

The Statutory Auditor and the Custodian shall continue to carry out their duties until the liquidation proceedings are complete.

TITLE V

DISPUTES

Article 13 - Competent courts - Election of domicile

Any disputes relating to the Fund that may arise during the course of its existence or liquidation, either between the unitholders or between the unitholders and the Management Company or the Custodian, shall be submitted to the jurisdiction of the competent courts.
